Good afternoon Jeff Banka,

Effective April 1, 2025, USIS/AmeriSys changed their pharmacy benefit manager (PBM) partners from MyMatrixx to Enlyte Script Advisor. Prior to that, all employees with open claims received notification from Enlyte Script Advisor containing their updated pharmacy information. All USIS/AmeriSys staff have completed training on Enlyte Script Advisors new system to avoid any issues with employees receiving prescriptions.

Attached is additional information regarding the PBM transition as well as a copy of the first fill form. Please let me know if any additional information is needed.

Best regards,

A handwritten signature in black ink, reading "Eunice Gutierrez". The signature is written in a cursive style with a large, stylized "G" at the end.

Eunice Gutierrez, RN
Assistant Vice President, Managed Care
P: 407-373-6309
