

Department of Homeland Security

Active Shooter Preparedness Workshop

June 28, 2017

The Academy, Room B1200/B1204
9911 Old Baymeadows Road
Jacksonville, FL 32256

Preparing employees for a potential active shooter incident is an integral component of an organization's incident response planning. Because active shooter incidents are unpredictable and evolve quickly, preparing for and knowing what to do in an active shooter situation can be the difference between life and death. Every second counts.

Unique Training Opportunity

The Florida State College at Jacksonville/Deerwood Center and the U.S. Department of Homeland Security are hosting a one-day workshop to enhance preparedness against active shooter incidents through:

- Developing an Emergency Action Plan with guidance from expert instructors
- Identifying strengths, weaknesses, and gaps in physical security and planning considerations via break-out sessions
- Learning how to prevent active shooter incidents by recognizing behavioral indicators on the pathway to violence
- Understanding the history of significant active shooter incidents through survivor stories and expert perspectives

Enhancing Emergency Planning

The workshop will describe how to incorporate key elements of successful incident management into planning efforts, such as:

- Developing communication and incident plans for employees
- Building relationships with local first responders
- Coordinating with first responders before, during, and after an incident
- Integrating public affairs into incident management

Active Shooter

Consequences from an Active Shooter incident can be fatal. Protect yourself by creating an emergency action plan by incorporating three basic response options:

"Run, Hide, Fight"

Did You Know?

Active Shooter situations are often **over within three minutes**, before first responders can arrive on the scene.
