

PCB Compliance Training

Webinar Schedule

July 12, 2017, 2:00 – 4:00 PM Eastern
August 9, 2017, 2:00 – 4:00 PM Eastern
September 6, 2017, 2:00 – 4:00 PM Eastern
October 4, 2017, 2:00 – 3:30 PM Eastern
November 8, 2017, 2:00 – 3:30 PM Eastern

APPA, NRECA and USWAG will hold a series of webinars addressing compliance with USEPA's federal polychlorinated biphenyl (PCB) regulations under the Toxic Substance Control Act (TSCA), 40 CFR Part 761. These webinars will focus on the use, storage and disposal of PCBs and PCB-containing electrical equipment as well as issues involving PCB remediation waste, PCB bulk product waste, and PCB-containing natural gas pipelines. These webinars are designed to serve as a primer for those new to the PCB regulations, and as a refresher for those more experienced in dealing with the federal PCB regulations.

The webinars will be held as follows:

PCB Webinar 1:

Wednesday, July 12, 2:00 pm – 4:00 pm Eastern

Background, Definitions, Assumptions and Conditions for Use; Storage and Marking

PCB Webinar 2:

Wednesday, August 9, 2:00 pm – 4:00 pm Eastern

Cleanup and Disposal, Part 1: Overview of Spill Cleanup options: PCB Spill Cleanup Policy; §761.61(a)-(c), USWAG/NRECA PCB Remediation Waste Disposal Approvals – Requirements and Implementation Considerations; §761.30(p)

PCB Webinar 3:

Wednesday, September 6, 2:00 pm – 4:00 pm Eastern

Cleanup and Disposal, Part 2: Decontamination; Disposal Options and Requirements; PCB Remediation Waste vs. PCB Bulk Product Waste; PCBs in Building Materials; Related EPA Guidance and Enforcement Policy

PCB Webinar 4:

Wednesday, October 4, 2:00 pm – 3:30 pm Eastern

Recordkeeping and Reporting; Notification and Manifest; Sampling Overview

PCB Webinar 5:

Wednesday, November 8, 2:00 pm – 3:30 pm Eastern

Natural Gas Pipelines and Appurtenances; Use Conditions and Compliance Considerations

About the presenters

Allison Foley

Counsel, Venable LLP

Allison Foley's practice focuses on a range of environmental and administrative issues critical to the utility, manufacturing, and real estate industries, with a focus on chemical management, risk assessment, and site remediation. Ms. Foley represents a number of electric and gas utility companies and trade associations including USWAG and NRECA on compliance, reporting, and enforcement under several federal laws including TSCA and CERCLA. This work included helping to secure for USWAG and NRECA members broad risk-based disposal approvals applicable to certain PCB remediation wastes. Her practice also includes representation of property developers, lenders, and sellers on environmental liability management and remediation strategies associated with the transfer and redevelopment of industrial, commercial, and residential properties. Douglas Green
Partner, Venable LLP

Douglas Green chairs Venable's Environmental Practice Group and his practice focuses on complex administrative and appellate litigation, enforcement defense, and compliance counseling under the nation's environmental statutes, including RCRA, TSCA and CERCLA. Mr. Green is lead counsel for the USWAG, and has represented USWAG for more than 25 years on solid and hazardous waste and chemical compliance, reporting, and enforcement issues arising under the full spectrum of federal and many state environmental laws. Mr. Green also represents individual clients in a variety of commercial sectors, including the chemical, building and forest products, utility, pesticide, and pharmaceutical industries, on compliance, strategic planning, and enforcement defense matters. If you have any questions or need more information, please contact USWAG Executive Director [Jim Roewer](#) at 202-508-5645.

USWAG was formed in 1978 and is an association primarily dedicated to assisting members in the management of wastes and the beneficial use of materials associated with the generation, transmission, and sale of electricity and natural gas. USWAG is comprised of over 130 individual utilities, power producers, energy companies, and energy trade associations. Together, USWAG members represent more than 85% of the total electric generating capacity of the U.S., and service more than 95% of the nation's consumers of electricity and over 93% of the nation's consumers of natural gas.

Powering Strong Communities

The American Public Power Association is the voice of not-for-profit, community-owned utilities that power 2,000 towns and cities nationwide. We represent public power before the federal government to protect the interests of the more than 49 million people that public power utilities serve, and the 93,000 people they employ. Our association advocates and advises on electricity policy, technology, trends, training, and operations. Our members strengthen their communities by providing superior service, engaging citizens, and instilling pride in community-owned power.

The National Rural Electric Cooperative Association (NRECA) is the national service organization that represents the nation's more than 900 not-for-profit, consumer-owned electric cooperatives, which provide service to 42 million people in 47 states across 56 percent of the nation. America's electric cooperatives employ 72,000 people in the United States who are dedicated to providing safe, affordable and reliable electric service to their consumer-members. Established in 1942, NRECA supports co-ops by serving as their voice in the nation's capital, advocating for legislative and regulatory policies that empower cooperative members and improve the quality of life in rural communities.
