The information and guidance provided by Florida Electric Cooperatives Association's (FECA) Storm Book is for informational purposes only. All information in the Storm Book is provided in good faith and is updated annually, however FECA makes no representation of any kind, express or implied, regarding the reliability, availability or completeness of any information in the Storm Book. Under no circumstance shall FECA have any liability for any loss or damage of any kind incurred as a result of the use of the Storm Book. FECA does not endorse the use of any contractor on the list provided in the Storm Book and the inclusion of a contractor on the list is not an indicator of compliance with federal procurement standards.

PURPOSE

1. The Florida Electric Cooperatives Association (FECA) is available to procure manpower and equipment for any member that needs assistance from another cooperative. This manual provides a standard operating procedure for members to request assistance through FECA. This manual supplements each member cooperative's individual plan and is not in any way intended to replace or supersede the member's plan.
2. Generally, FECA will only be called upon when assistance is needed by, or from, more than one Florida cooperative or from cooperatives in other states. Nothing in this plan prevents a Florida co-op from requesting assistance directly from a neighboring co-op to assist with an isolated storm. However, when more than one co-op requires assistance, it will be advantageous for FECA to coordinate the assistance from other co-ops and statewides, and all such assistance should be coordinated through FECA and the other statewides.
3. NRECA has many disaster recovery resources which can be found at the following web site:

www.cooperative.com/topics/disaster-recovery/Pages/default.aspx

ACTION PLAN FOR SECURING HELP

PRIOR TO A DISASTER

1. Make sure that the information for your co-op is up to date in FECA's Emergency Work Plan Manual and in the Cooperative Mutual Aid web-based program, which can be found at the following:

<https://fl.stormassistsite.com/login.php>

2. Update your procedures to accommodate FEMA's latest procurement and documentation requirements.

NRECA's updated FEMA Guide can be found on cooperative.com:

www.cooperative.com/programs-services/government-relations/regulatory-issues/Pages/Secure/FEMA-Guide.aspx

FEMA's Public Assistance Program and Policy Guide can be found here:

www.fema.gov/media-library/assets/documents/111781

3. FECA staff will monitor storms, but it is up to the member co-op to notify FECA that assistance may be needed in the near future.
4. As soon as it becomes apparent that a member may require assistance from other co-ops, notify FECA of the following by phone (**see Requesting Assistance Format for requesting via e-mail in a spreadsheet** and the Cooperative Mutual Aid web-based program):
 - a. An estimate of the number and type of personnel and equipment that FECA should try to procure;
 - b. An estimate of the date and time you want them to arrive;
 - i. Note that FEMA may not reimburse for "staging crews", however, travel time after the disaster has been declared should be reimbursable.
 - ii. Also, if you plan to stage crews you need to agree (preferably in writing) on the number of hours they will be paid per day to standby and how much of that will be overtime.
 - c. The location they should report to; and
 - d. A rough estimate as to how long help may be needed.
5. Once FECA has been notified that assistance may be required, FECA will contact the other Florida co-ops and other statewide associations regarding their potential needs and their ability to assist.

6. If more than one member co-op requests assistance prior to the storm, FECA will initiate a conference call with the requesting member systems to discuss pre-storm commitments and possible coalitions for crews, tent cities, and other needs.
7. FECA will initiate a conference call with the other statewide organizations to discuss mutual aid and will obtain information from the EOC regarding any relevant declarations that may assist with travel and the possible use of facilities such as weigh stations for fueling stations.
8. FECA will arrange for pre-disaster assistance from co-ops on the NRECA Mutual Aid List (available on cooperative.com – search for “Mutual Aid Agreements”) and will attempt to form coalitions with members to jointly procure crews and secure items from vendors such as portable housing, caterers, cranes, etc. The requesting co-op understands that help arranged prior to the storm will need to be obtained from co-ops that believe they are not in the storm’s projected path. Therefore, for long term events we recommend seeking crews from further away first and calling on the neighboring states to help as soon as they are in the clear. This also will minimize the need to “stage” crews, but if you elect to stage crews it is important to establish hours that the crews will be paid while standing by. FECA will provide a copy of the co-op specific information for the requesting co-op that is in FECA’s emergency work plan manual to the assisting co-ops.
9. If the total number of personnel requested to be staged prior to the event cannot be obtained at that time, the available personnel will be rationed among those requesting assistance.
10. FECA will be available to assist the members in establishing safe areas to stage assisting personnel and equipment until the storm subsides, but the requesting co-op ultimately is responsible for all of the staging arrangements.
11. The requesting co-op must prepare to house, feed, and generally take care of the assisting personnel.
12. Assistance from vendors and any utilities that are not parties to the NRECA Mutual Aid agreement must be pursued by the member co-op, through a competitive bidding process as required by FEMA. FECA can assist if necessary, but anything that requires bidding should be done by the co-op if possible. Note that the bidding process must consider women-owned and minority-owned businesses. To make women and minority businesses aware of your contracting opportunities, contact your regional or federal Small Business Administration office to receive a list of these types of businesses in your area. Also check with

the State to see if it has compiled a list of women and minority vendors, contractors, and subcontractors that co-ops can review before essential support services are needed.

AFTER THE DISASTER STRIKES

1. Perform an initial damage assessment. Use of an airplane, helicopter or drone to patrol the system is a quick way to assess widespread damage. (See Section 934.50, Florida Statutes, for guidelines on drone use)
2. Once the damage has been assessed, notify FECA of the following:
 - a. The number and type of personnel, equipment, and materials that FECA should procure for the member by phone and input the request in the Cooperative Mutual Aid site: <https://fl.stormassistsite.com/>
 - b. The location the personnel should report to;
 - c. Weather and road conditions;
 - d. A rough estimate as to how long help may be needed; and
 - e. The maximum number of meters that were interrupted at the height of the storm, and the approximate number of meters presently out in each county. For those co-ops that have outage information that is displayed by county available on their public web page, further outage reporting is not required but estimated restoration times still must be reported to statewide, which FECA will report to the state EOC. If your OMS System is down or not working properly please email outage figures by county to statewide at Outagenumbers@embarqmail.com on the schedule determined by the EOC.
3. FECA will contact the other Florida co-ops and other statewide associations to obtain the requested assistance from co-ops and municipalities that are on the NRECA Mutual Aid List. FECA will provide the assisting co-ops a copy of the requesting co-op's specific information that is in FECA's emergency work plan manual. FECA also can assist with obtaining assistance from the IOU's in Florida including their contract crews, however, each co-op must individually assess whether to sign a mutual aid agreement with an IOU.
4. If the number of personnel requested by all of the co-ops that need assistance cannot be obtained, the personnel will be rationed among those requesting assistance.
5. The host co-op must be prepared to house, feed, and generally take care of the assisting personnel when they arrive.

6. Assistance from vendors and any utilities that are not parties to the NRECA Mutual Aid agreement must be pursued by the member co-op, through a competitive bidding process as required by FEMA. FECA can assist if necessary. Note that the bidding process must consider women-owned and minority-owned businesses. To make women and minority businesses aware of your contracting opportunities, contact your regional or federal Small Business Administration offices to receive a list of these types of businesses in your area. Also check with the State to see if it has compiled a list of women and minority vendors, contractors, and subcontractors that co-ops can review before essential support services are needed.
7. The assisting crews may be called home at any time by their co-op's management. In addition, their management may elect to rotate the crew personnel as they deem necessary. FECA is available to assist with the rotation, and in any event should be notified that crews will be rotated.
8. FECA will be available 24/7 to work with the State EOC in the event that a member co-op needs assistance at the State EOC level.

AFTER SERVICE IS RESTORED

1. As soon as the emergency repairs have been made, FECA shall be notified as early as possible that the member system will be releasing the assisting crews and FECA will determine whether those crews can be sent to another co-op that needs help. In addition, FECA should be notified before contractors are released in the event that another co-op may need to hire the contractors. If another co-op does need your contract crews, we ask that you release the crews to the requesting co-op rather than just a general release if possible.
2. Any vendors that performed unsatisfactorily should be reported to FECA and shall be reconsidered for FECA's list of contractors. Also, please notify FECA of any vendors that can be added to the list of contractors.
3. Reimbursement – The underlying principle is that a cooperative shall incur neither a monetary gain nor loss on services rendered. In addition, the employees involved shall not be expected to bear expenses which they would not have during their normal work assignment. We recommend that any unusual items be discussed with the other co-op prior to the purchase. If circumstances permit, it is recommended that co-ops request billing information from the co-op providing assistance prior to crews being sent. See attached "Pre-work Questionnaire" form on page 13.

SUGGESTIONS FOR REQUESTING MUTUAL AID ASSISTANCE

When disaster strikes your system, FECA and other co-ops will help as you see fit. The following are some observations made from past experiences with mutual aid.

WHEN REQUESTING ASSISTANCE

1. Whenever possible, the co-op should arrange for contract crews and other vendors prior to a storm through a competitive bidding process as required by FEMA, including notice to women and minority owned businesses. FECA stands ready to request crews and other personnel from co-ops and municipalities that are on the NRECA Mutual Aid List.
2. When requesting mutual aid, the following is a general composition of crews:
 - a. Construction – Usually a working foreman and three to six other people, at least two of which are journeyman linemen, one or two 55-60 foot bucket trucks, a digger derrick, one pickup truck, and a pole trailer. Larger construction crews might have 2 construction buckets and 2 digger derricks. Crew should come complete with digging tools, line tools, sleeves, splices, chain saws, trouble lights and other associated tools and equipment. Four-wheel drive vehicles should be specified if needed.
 - b. Service Bucket - A service crew is usually 2 -3 men, at least one of which is a journeyman lineman, with a bucket truck with a reach of approximately 30-40 feet that probably does not have any material handling capability. Usually includes a pick-up truck. Service vehicle should be equipped with line tools, ladder, sleeves, splices, chain saws, trouble lights, and other associated tools and equipment.
 - c. Underground - A foreman and two to four other people, at least one of which is a journeyman. This crew is expected to be equipped with a trencher and backhoe or a trencher/backhoe combination also equipped with digging tools, line tools, sleeves, splices, chain saws, ladders, trouble lights, locating equipment, spiking tools, and other associated tools and equipment.
 - d. Right of Way - A foreman and two to four other people with buckets, chippers, dump truck and various clearing equipment.
 - e. Mechanic - Mechanic and equipped service truck.

- f. Clerical Support - cashiers, receptionists, and secretaries to relieve regular office personnel.
 - g. Other - phone representatives (specify if knowledge of a specific foreign language would be helpful), accounting, government/media liaison.
 - h. Warehouseman Manager - A person competent in the workings of a warehouse and the materials in it. A commercial driver's license is beneficial.
 - i. Warehouseman Helper - A person familiar with the materials in a warehouse. A commercial driver's license is beneficial.
- 3. The host co-op must make arrangements for lodging and feeding outside help.
 - 4. Truck and equipment service may be a problem since service stations and garages may be damaged or without power. The host co-op should make arrangements to provide fuel, mechanical services, and tire repair on a 24-hour basis. Please note that most mutual aid will charge FEMA rates for all vehicles and FEMA rates generally include fuel. Should your co-op provide fuel for mutual aid vehicles you will need to have some type of system to track how much was provided to each assisting co-op/contractor so that you can bill the fuel charges back to them.
 - 5. Maintain a list of names of who is working with whom and where - and their radio call letters/frequency and cell phone numbers.
 - 6. It is recommended that each co-op maintain a private, unlisted phone number and that FECA be informed of this number and maintain the secrecy of the number so that coordinating personnel can reach the co-op during the emergency.
 - 7. If circumstances permit, it is recommended that co-ops request billing information from the co-op providing assistance prior to crews being sent. See attached "Pre-work Questionnaire" form on page 13.

WHEN THE HELP ARRIVES

1. The host co-op shall:
 - a. Notify the assisting crew about:
 - i. Complying with safety procedures
 - ii. Any special or unusual circumstances on your system
 - iii. Food and lodging and how to handle expenses
 - iv. Where to get fuel, get equipment serviced, and how to handle any invoices
 - v. The length of time they will be expected to work and the length of rest periods
 - vi. Persons that are in charge of operations and dispatching
 - vii. Discuss FEMA related documentation
 - b. Verify that the visiting crew's safety equipment is adequate for the conditions and voltages (i.e., verify ratings for gloves, grounds and PPE);
 - c. Secure agreement from arriving crews that safety practices are understood and will be complied with; and
 - d. Provide system and road maps and, if possible, GPS coordinates of staging areas and work locations.
2. The host co-op should consider conducting morning meetings to brief the crews on restoration efforts and to discuss safety and operational issues, and FEMA related documentation.

Maintain well-established dispatching procedures, including lock-out/tag-out, for clearing devices in the field.

Pre-Work Billing Questionnaire*

Cooperative Name	
What is your storm rate of pay (ex.: 1.5X, 2X, or other)?	
What are the minimum storm hours charged per day?	
If crews are on standby, how many hours are charged per day?	
Are administrative fees charged on a standard % of salary, i.e. 75% or 100%, if not, how do you calculate?	
Do you charge normal FEMA rates for equipment? <i>If not, please supply rate sheets.</i>	
Please list any other pertinent billing information here.	

*Please return prior to sending crews.

Responding Utility Name and Contact Information:

SUGGESTIONS FOR SENDING HELP TO OTHER CO-OPS

1. When sending assistance to another co-op make sure your personnel has:
 - a. Contact names and numbers of the requesting co-op;
 - b. Contact names and numbers for their home co-op and a means to call, possibly including cell phones and satellite phones;
 - c. Directions, including information on road conditions and closures;
 - d. Sufficient cash and possibly a company credit card. In the event your crews run short of cash, arrangements should be made with the host co-op manager or his representative for additional funds;
 - e. An estimate of the amount of time they are expected to stay at the requesting co-op;
 - f. Enough food and water for the first few days;
 - g. Sun screen;
 - h. Bug spray;
 - i. Bedding;
 - j. Equipment for night work;
 - i. Extra lights
 - ii. Flash lights with extra batteries
 - iii. Reflective vests
 - iv. Reflective cones
 - k. Foul weather gear;
 - l. Chain saws and chain saw chaps;
 - m. Shots for personnel, such as tetanus;
 - n. Extra gloves - both leather and rubber;
 - o. Extra safety glasses; and
 - p. Extra grounds.
2. When sending several crews, it is suggested that you send a supervisor to coordinate the activities of your crews, handle petty cash, and perform other managerial duties.
3. When sending several crews you should also consider sending a mechanic with an equipped mechanic's truck.
4. Input the crew information into the Cooperative Mutual Aid site at <https://fl.stormassistsite.com/>. If this is not possible for some reason, or if we are sending help to a state that does not use the program, provide the relevant crew intake information to FECA in an Excel spreadsheet in the Providing Assistance Format. FECA will forward all information provided by the assisting co-op to the

statewide association that is requesting help through the Cooperative Mutual Aid web-based program or in a spreadsheet.

5. Assisting crews may be called home at any time by their co-op's management. In addition, the assisting co-op may elect to rotate their crew personnel as they deem necessary. These crew rotations should be coordinated with FECA, and FECA will coordinate with the statewide association of the co-op you are assisting.
6. Explain your co-op's policy regarding off-site work rates/overtime. This should be compliant with a co-op's written policy to avoid problems with FEMA reimbursement.
7. If you charge for vehicles pursuant to FEMA's rates, verify the rates by checking FEMA's web page at: www.fema.gov/schedule-equipment-rates

*****Be advised that the following list of contractors is for general information purposes only and any decision to use a contractor from the list is solely at your discretion. FECA does not endorse the use of any contractor on the list and the inclusion of a contractor on the list is not an indicator of compliance with federal procurement standards.**

MUTUAL AID AGREEMENT

In consideration of the mutual commitments given herein, each of the Signatories to this Mutual Aid Agreement agrees to render aid to any of the other Signatories as follows:

1. Request for aid. The Requesting Signatory agrees to make its request in writing to the Aiding Signatory within a reasonable time after aid is needed and with reasonable specificity. The Requesting Signatory agrees to compensate the Aiding Signatory as specified in this Agreement and in other agreements that may be in effect between the Requesting and Aiding Signatories.
2. Discretionary rendering of aid. Rendering of aid is entirely at the discretion of the Aiding Signatory. The agreement to render aid is expressly not contingent upon a declaration of a major disaster or emergency by the federal government or upon receiving federal funds.
3. Invoice to the Requesting Signatory. Within 90 days of the return to the home work station of all labor and equipment of the Aiding Signatory, the Aiding Signatory shall submit to the Requesting Signatory an invoice of all charges related to the aid provided pursuant to this Agreement. The invoice shall contain only charges related to the aid provided pursuant to this Agreement.
4. Charges to the Requesting Signatory. Charges to the Requesting Signatory from the Aiding Signatory shall be as follows:
 - a. Labor force. Charges for labor force shall be in accordance with the Aiding Signatory's standard practices.
 - b. Equipment. Charges for equipment, such as bucket trucks, digger derricks, and other special equipment used by the Aiding Signatory, shall be at the reasonable and customary rates for such equipment in the Aiding Signatory's location.
 - c. Transportation. The Aiding Signatory shall transport needed personnel and equipment by reasonable and customary means and shall charge reasonable and customary rates for such transportation.
 - d. Meals, lodging and other related expenses. Charges for meals, lodging and other expenses related to the provision of aid pursuant to this Agreement shall be the reasonable and actual costs incurred by the Aiding Signatory.
5. Counterparts. The Signatories may execute this Mutual Aid Agreement in one or more counterparts, with each counterpart being deemed an original Agreement, but with all counterparts being considered one Agreement.
6. Execution. Each party hereto has read, agreed to and executed this Mutual Aid Agreement on the date indicated.

PERSONNEL

UNION: Clay is non-union.

OVERTIME RATE:

Non-exempt employees receive overtime pay for over forty (40) hours worked in a normal work week. During mutual aid assistance away from CECI, overtime pay for non-exempt employees is paid at the rate of 2.0 times the regular rate of pay. If a non-exempt employee is required to work on a holiday (as defined by CECI's policy), the employee will receive 8 hours of holiday pay from CECI and will be paid at the rate of 2.0 times the regular rate of pay for the actual time worked.

LAKE CITY DISTRICT OFFICE

1797 SW SR-47 Lake City, Florida 32025-2935

Office Hours 8 a.m. to 5 p.m.

(386) 752-7447 Fax (386) 961-0117

DIRECTIONS

Located on SW SR 47, 2.3 miles north of exit 423 on I-75.

- From Baker County - Take US 90 west to Lake City, then SR IOA (Baya Avenue), left on SW Main Blvd, then slight right onto SR 47. Office will be on the left.
- From Union County - take SR 100 west to Lake City, then left on SR IOA (Baya Avenue), left on SW Main Blvd, then slight right onto SR 47. Office will be on the left.
- From south - take SR 47 north to Lake City, 2.3 miles past I-75. Turn right to office.
- From Fort White - take SR 47 north to Lake City, 2.3 miles past I-75. Turn right to office.

SALT SPRINGS DISTRICT OFFICE

P.O. Box 5500

County Road 316

Salt Springs, FL 32134-5500

Office Hours 8 a.m. to 5 p.m.

(352) 685-2111 FAX (352) 685-4217

DIRECTIONS

Located on CR 316 one mile west of SR 19 in Salt Springs.

- From Orange Springs - go south on CR 315 to Fort McCoy, then east (left) on CR 316 to Salt Springs.
- From Citra - go south on US 301, then east (left) on CR 316 through Fort McCoy to Salt Springs.
- From Barberville area (Volusia County) - take US 17 to Barberville, then SR 40 west through Astor to SR 19, then north (right) on SR 19 to Salt Springs, then west (left) on CR 316 to the office.
- From the Lynn area (east Ocala) - take CR 314 to Salt Springs, then north (left) on SR 19 to CR 316, then west (left) on CR 316 to the office.

PALATKA DISTRICT OFFICE

300 North State Road 19 Palatka, FL 32177-2498

Office Hours 8 a.m. to 5 p.m.

(386) 328-1432 FAX (386) 312-4017

DIRECTIONS

Located on west side of SR 19 (one-half mile north of SR 20)

- From the Bostwick area - go south on US 17 to SR 19 and turn right, then continue south on SR 19 to the office.
- From the Kenwood and Rodman areas - go north on SR 19 to the office.
- From the Interlachen and Hollister areas - go east on SR 20, turn left (north) on SR 19 to the office. From the Florahome area - go east on SR 100, turn right (south) on SR 19 to the office.
- From the Welaka and Crescent City areas - go north on US 17 to Palatka across bridge on US 17/SR 100, through the city, follow SR 100 left off US 17, turn left (south) on SR 19 to office.

ORANGE PARK DISTRICT OFFICE

734 Blanding Blvd

Orange Park, FL 32065-5798

Office Hours 8 a.m. to 5 p.m.

(904) 272-2456 FAX (904) 276-6733

DIRECTIONS

Located 3 miles south of 1-295 on west side of SR 21 (Blanding Boulevard).

- From west Duval or Baker Counties - take 1-10 east to 1-295, then 1-295 south to exit #4, then south on SR 21 to office.
- From Middleburg - go north on SR 21 to office.
- From Green Cove Springs area - go north on US 17 to CR 220. Turn left (west) on CR 220, cross over Swimming Pen Creek and railroad tracks, turn right on College Drive. Go to Blanding Boulevard and turn right (north) to office.
- From Fleming Island area - (same as Green Cove Springs).

KEYSTONE HEIGHTS DISTRICT OFFICE

65 W Citrus Avenue P.O. Box 308
Keystone Heights, FL 32656-0308
Office Hours 8 a.m. to 5 p.m.
(352) 473-4917 FAX (352) 473-1403

DIRECTIONS

Located 1/8 mile west of SR 21 on SR 100.

- From the north (in Clay County) - go south on SR 21, turn right on SR 100 at the traffic light.
- From the south - go north on SR 21, turn left on SR 100 at the traffic light.
- From Interlachen area - go north on CR 315 to Grandin, then west (left) on SR 100 to Keystone Heights.
- From Starke area or Union County - go east on SR 100 to Keystone Heights.
- From Brooker or Hampton - go east on CR 18 through Hampton to SR 100, then east on SR 100 to Keystone Heights.
- From Hawthorne or Lochloosa area - go north on US 301 to Orange Heights, then east (right) on SR 26 to Melrose,

then north (left) on SR 21 to Keystone Heights, then west (left) on SR 100.

GAINESVILLE DISTRICT OFFICE

11530 NW 39th Avenue
Gainesville, Florida 32606
Office Hours 8 a.m. to 5 p.m.
(352) 372-8543 Fax (352) 337-8117

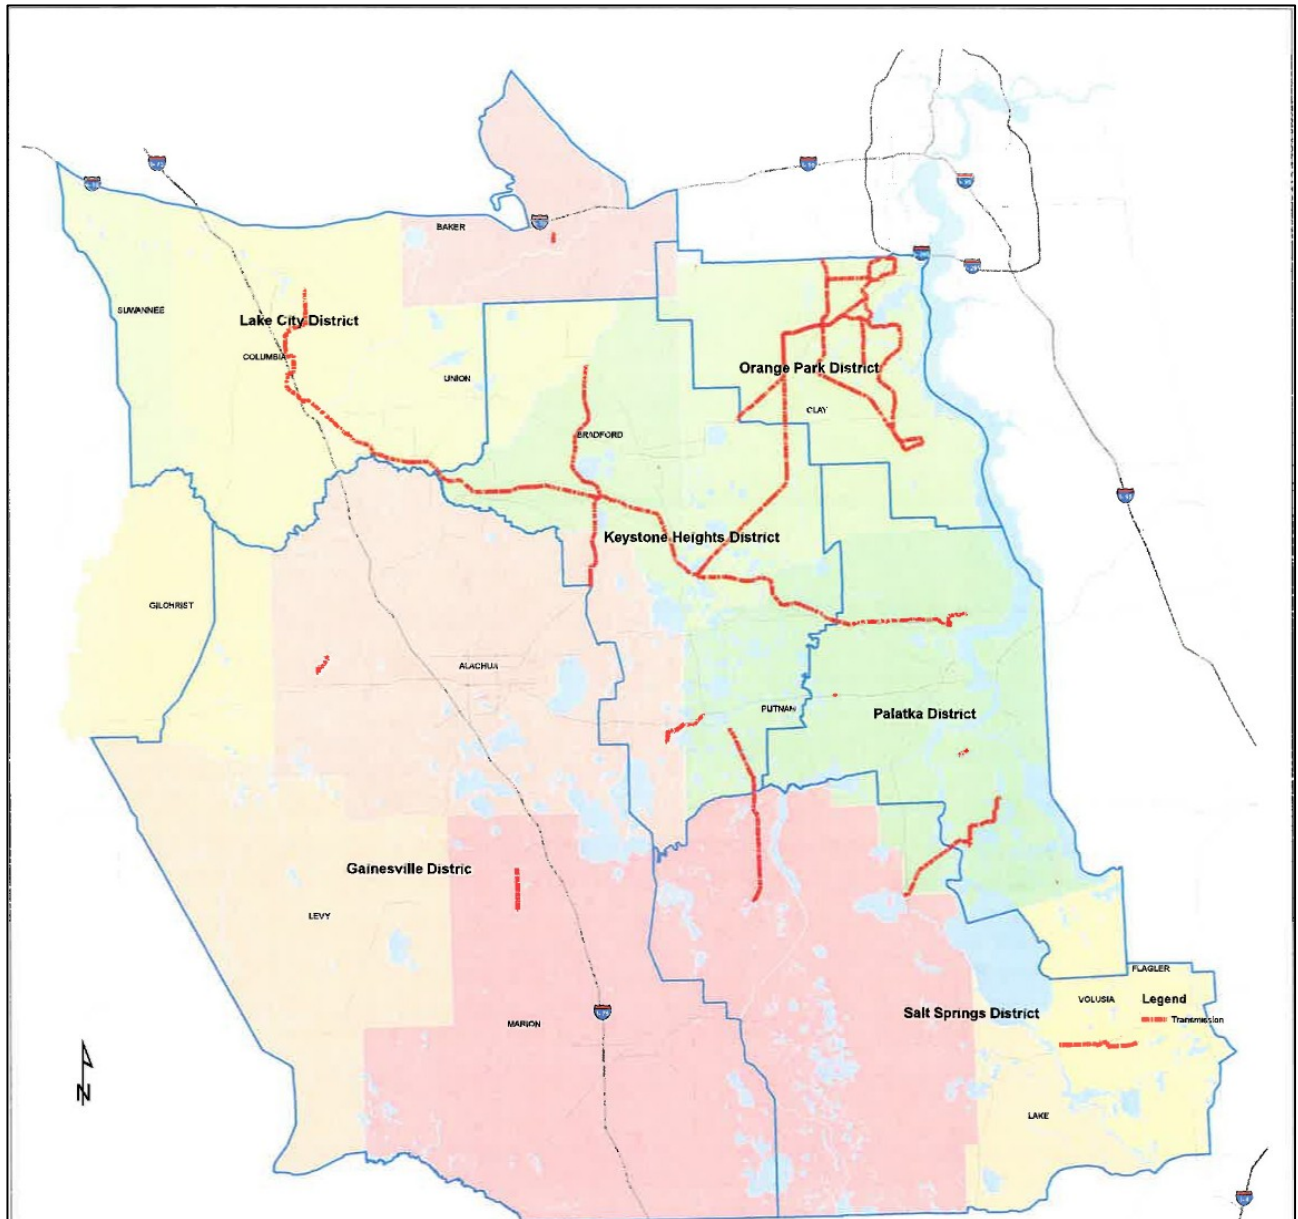

DIRECTIONS

Located 1/2 mile west of 1-75 on NW 39th Ave.

- From Alachua, High Springs area - Take 1-75 south to NW 39th Ave.
- From Fairbanks, Windsor, NE Alachua County - take NE 39th Ave west to office.
- From Cross Creek, Proctor, SE Alachua County, Citrus (NE Marion County) - take SR 20 east to SR 26 (East University Ave), SR 26 east to SR 24 (Waldo Road), north to NE 39th Ave, west to office (across town).
- From Newberry - go east on SR 26 to SR 241 (NW 143 St) north to NW 39th Ave, east to office.
- From Archer and Archer Road area - take Archer Rd to 1-75, 1-75 north to NW 39th Ave.
- From Micanopy, McIntosh, Reddick, North Marion County - take 1-75 North to NW 39th Ave.
- From Williston, Levy County - take SR 121 north to 1-75,

1-75 north to NW 39th Avenue.

LIST ANY SPECIAL EQUIPMENT YOU MIGHT NEED:

DIRECTIONS:

Using I-10 as a parameter to get to Gulf Coast Electric Wewa office, take Highway 71 exit off I-10 near the City of Marianna and turn south on Highway 71 to Wewahitchka. When you get to Wewa, turn right on Highway 22 and the office is approximately 1 mile on the left hand side of the road.

To get to the Southport office, take Highway 77 exit off I-10 near Chipley. Take Highway 77 South until you see Gulf Coast Electric's office on left hand side of the road at intersection of Highway 77 and County Road 388.

Directions to Panama City office from FECA:

Start out going west on Apalachee Pkwy. toward Executive Center Dr. Turn right onto S. Monroe St. Merge onto I-10 W toward Pensacola. Take the FL-12 exit, then keep left to take the ramp toward Greensboro. Turn left onto FL-12. Turn left onto Green Ave. Turn right onto FL-20. Turn left onto Highway 231. Turn left onto N. Star Ave. Turn right onto FL-22. Turn left onto US-98. Make a U-turn at Wood Ave. onto US-98 W. 6243 E. Highway 98, Panama City, FL 32404 is on the right.
